

Your Spirit Guide is Waiting

Can you Open the Door Just Wide
Enough to Let them In?

A course presented by

I'm with you every step of the way

This course is a culmination of everything that I have learned over the many wonderfully fulfilling years of my spiritual journey that started way back in the late 70's. I absolutely love everything that I do. I get so much joy from seeing others happy. From being able to connect those on the earth with their loved ones in the spirit world and to be able to teach what I know.

My hope is that this course will bring you to that same fulfilling point in your life. That doesn't mean that you have to become a medium or do any spiritual kind of work yourself. You can take everything that you learn in this course and apply it to your own life and your own personal journey – and we're going to do it together!

Your Spirit Guide is Waiting

Can you open
the door just
enough to let
them in?

I chose the name **Your Spirit Guide is Waiting** for this course, because... until you make the conscious choice to meet your spirit guide, that is exactly what they are doing. Waiting for you to meet them. And once you do, your life will never be the same!

Through this course, my aim is to enlighten and inform as well as give you practical tools and exercises to do, to assist you along your spiritual journey.

and Spiritual Life Coach

My Spiritual Journey

When I first started out, my objective was to learn to connect into the universal consciousness because I wanted to learn to communicate with my mother who had passed over. My intention was never to become a medium let alone a teacher and life coach.

And yet here we are today! And I absolutely love what I do. My readings are uplifting and inspirational and more than anything, I love to teach. Sharing my knowledge with you and seeing you succeed in your journey brings me absolute joy!

“My foundation lies in Spiritualism and this is the wisdom that I share with everyone. I do so hope that you’ll come along for this journey and love the experience as much as I do.”

Why Work with Me?

My spiritual journey began at the age of 17, and I've been really deeply committed to my spiritual growth since 1997. It's been an incredible adventure, filled with meaningful experiences and the privilege of connecting with extraordinary people along the way.

One of the most valuable lessons I've learned is that growth and learning never truly end. I feel deeply grateful to continue expanding my understanding through the unique and inspiring journeys of my clients. Whether it's through readings, coaching, or teaching, I'm honoured to be trusted with their stories and to share in their transformative experiences.

I invite you to embark on this journey of soul development and personal growth with me. Whether or not you aspire to become a medium, this course offers profound insights and tools to enrich your life. That's a promise I stand by!

FAQ's

What if I don't connect to my Spirit Guide?

Everyone eventually connects to their Spirit Guides and with this course, generally by the second month, you should discover who your Spirit Guide is. This is why I work with you so intensely and regularly on a one on one basis, to guide you through meditations specifically intended to make that connection to your Spirit Guide and it works every time.

Why does it take 8 months to complete this course?

As we move through the course you'll see why. The Spirit Realm is vast and there is so much to learn. This course is so much more than just connecting to your Spirit Guide.

What if I don't want to become a Lightworker?

There is no reason why you can't do this course just for yourself. Becoming a Lightworker is a specific choice that not everyone feels drawn to make. However, learning to work with your Spirit Guide for your own benefit, is definitely what you'll take away from the course.

I have already connected to my Spirit Guide(s). What more can I learn from the course?

It's great if you already know who your Spirit Guide is. This will contribute to you making a stronger connection and learning how to work with your Spirit Guide, either as a Lightworker or just for your own personal benefit.

You also learn so much about yourself and so your own personal growth is an important aspect of this course.

FAQ's

What if I miss a session?

This is why we have a contract in place. Life happens and there will be times that you miss a session. In these instances, we set up time that works for both you and I to do a catch-up. However, if you do miss a session, it could result in an extra week added to the course, but we can agree at the time. You don't want to run too much overtime.

Why do I need to sign a contract?

The contract you sign is essentially a Terms and Conditions document. It has been drawn up in a way that protects both you and me and sets out expectations so that no surprises arise along the way.

What if I'm unable to meditate on my own?

Meditation always feels so difficult in the beginning, but I teach you to do intentional meditation and you will discover how it actually works. You will become more familiar and able to control your thoughts and your mind. It's just how it works!

Will this course teach me how to integrate my daily life into my spiritual life?

Most certainly. Many people are afraid to talk to others about their personal beliefs. The changes that you find in yourself are so subtle that you very soon find your daily life and your spiritual life has become one. But we do have a whole section dedicated to how to do this.

FAQ's

When will I be able to start working in service to others?

You become aware of what you would like to do working in service to others somewhere around halfway through the course. But you can choose whenever you feel ready. That's why I'm here, I will help you get there.

What if I don't feel ready after the eight months are up?

I will never leave you in the lurch or feeling like you're not yet ready to finish off. You can choose to continue with me for as long as you feel you need my support.
